Variety is the Spice of Life!

Offer a variety of high-quality grass hays to engage your pet, promote dental maintenance, and encourage healthy eating habits.

Just like you, your small pets benefit from some variety in their daily diet. By mixing and matching hay varieties, you can keep your pets’ mealtime interesting and ensure necessary intake – an important step in preventing potential health problems associated with decreased consumption. All of Oxbow’s hand-sorted hays feature a Taste & Texture Guide on the front of the bag to help determine which tastes and textures your pet enjoys most.

**WESTERN TIMOTHY HAY**
- High in fiber, low in protein and calcium
- Perfect balance of sweet, soft, crunchy, and hearty

**BOTANICAL HAY**
- Western Timothy mixed with chamomile, lavender, lemon balm, and clover
- A fragrant balance of sweet, soft, and crunchy

**ORCHARD GRASS HAY**
- Excellent for mixing with other varieties
- A sweet, soft favorite of many pets

**OAT HAY**
- Larger stems and oat seed heads make for a foraging favorite
- Crunchy texture and nutty flavor

**ALFALFA HAY**
- Small amounts make a great treat
- Soft texture with a sweet flavor and smell

**ORGANIC MEADOW HAY**
- 100% Certified Organic grass hays
- Balanced textures and fragrant smell
Why Oxbow Hay?

- Recommended by vets worldwide
- Dust extraction reduces fine particles
- Premium quality for small pets
- Sorted by hand with care

Did You Know?

70% of your small herbivore’s daily diet should be grass hay.

A herbivore’s teeth never stop growing. Hay is essential, as it stimulates normal chewing and dental wear, helping decrease the risk of dental disease.
